The Chairman's Thoughts

Although the holiday season seems far off, it's not too early to start thinking about what to give. This month RadioShack makes it easier and more affordable than ever to give a truly spectacular gift—digital satellite TV. See page 13 for special offers on PRIMESTAR® and RadioShack's own Optimus®-brand DSS system.

Quality phones and phone services such as Sprint® prepaid calling cards are practical gifts that are sure to please family members and friends. The new *Sprint Store at RadioShack*, now with over 6,000 locations, brings you an incredibly wide product selection, plus an opportunity for extra savings this month. Sign up for Sprint residential long-distance service at RadioShack and get 25% off any one phone or answering machine in stock. This offer applies to *sale-priced* answerers and phones, too, which means savings on top of savings in many cases—see pages 3 through 6.

Why do more people buy IBM Aptiva® computers at RadioShack? Our customers tell us that the availability of accessories and service along with special financing are the most important reasons. Discover firsthand the capabilities of these truly world-class computers at our store near you. **Visit us soon!**

Ask us about the many advantages of our prepaid cellular plan.

*Advertised cellular price requires a new activation and minimum service commitment (usually 1, 2 or 3 years) upon credit approval, with a RadioShack authorized cellular carrier serving your area. Like your home phone, a monthly service fee, long distance fees, and charges for airtime you actually use will be made. All these fees vary depending on the plan you select. If you terminate service before the completion of your minimum service commitment, your carrier may impose a flat or pro-rated penalty fee. If you terminate service within 120 days of activation, to avoid a \$300 charge from RadioShack, you must return the cellular phone. Offer void in CA. Details in store.

Test meters are NOT just for "techie"

In fact, every home needs a meter like the ones shown here. Use a meter to check fuses, stereo cords, connections, plugs and switches. Often the problem is a simple one you can fix yourself—and save on expensive service calls.

Test meters make great gifts for students, do-it-yourselfers, and anyone interested in electronics or science. RadioShack has more than 10 models in stock, plus accessories and an easy-to-understand book (#62-2039) that shows how to get the most from a tester.
